**NOW ! you can make full use of your magazines
with the:**

Periodical Guide for Computerists

The guide is a valuable aid in locating articles which you have read but can't remember where. Also, it is a good reference to magazines you don't have or might not be aware of. Indexed are articles, letters from readers, book reviews and editorials which have relevance to the personal computing field.

The January-June 1977 Periodical Guide indexes 1080 articles under 90 subject categories from 23 hobby and professional publications in a 32 page book. The book is available for only \$3.00 postpaid.

The January-December 1976 Periodical Guide indexes 1030 articles from 15 magazines under 105 subject categories on 20 pages and is also only \$3.00 postpaid.
